SMR Research Corporation

Founded in 1984, SMR is the nation's largest independent producer of market research studies on consumer financial subjects. The firm also offers predictive modeling and consulting services.

In consumer lending, SMR's client base includes most large banks, thrifts, and nonbank financial institutions, plus many retailers and government agencies. Other firms and nonprofits are clients for SMR consumer studies in their fields, such as charitable donations and home improvements. More than 800 executives at more than 400 organizations have been SMR clients.

We do not receive grants or other outside funding supportive of our research publishing business. This keeps the research objective, but also requires us to sell copies of our studies. We try to keep the prices of these studies in line with the cost to produce them.

Stuart A. Feldstein is president and co-founder of SMR. The former editor of the Corporate Strategies section of Business Week magazine, Mr. Feldstein was the chief author of this study.

Stephanie Rady is director of data products and services. **Jonathan Varone** is director of technology and predictive scoring. **Marie Sheard** is SMR's administrative manager and aided in the marketing of this study.

SMR is based in Hackettstown, NJ.

Network Electronic Version Of The Study

SMR offers an electronic Network version of **Consumer Energy Spending**. This version is delivered via email as a Microsoft Word file.

The Network version comes with our permission to post the study to internal computer networks, so that all of your organization's employees can access it, search for key words, and print out desired portions. The only usage limitation is that, under copyright law, you must retain the electronic file within your firm. SMR does prosecute copyright violations.

Clients for the Network version also get the study in printed form. The Network version costs **\$250** more than the printed version alone. To sign up, use the Order Form on the reverse side of this sheet.
